

DANIEL POURRAHIMI

Research Assistant

DETAILS

(647) 716-1543
Toronto, Canada
daniel.pourrahipi@mail.utoronto.ca

PROFILE

I am a hardworking university student with vast experience in multiple fields and a keen eye for experimental design and data analysis. Strong coding experience with multiple personal projects and excellent research experience with three full-length research papers written. Extremely dedicated and always available to complete a project, work with others, and multitask. Experience in many entrepreneurial roles with a record label, review company, and book publishing business.

AREAS OF EXPERTISE

- Academic Research
- Computer Coding
- Team Based Lab Work
- Biological Experiments
- Anthropology Research

SKILLS

- Fast learner
- Strong ability to work in a team
- Effective time management skills
- Academic writing
- Collaboration and teamwork
- Customer service
- Java
- R
- Swift
- HTML
- Microsoft office
- Video and photo editing
- Creating algorithms for analysis

LAB EXPERIENCE

ANT203 - Biological Anthropology
BIO202 - Animal Physiology
BIO206 - Molecular Biology

HOBBIES

Reading, writing, jogging, coding, video and photo editing.

CAREER HISTORY

Sales Associate, Fortinos

September 2020 - April 2021

- Responsible for cleaning and welcoming customers and stocking shelves primarily at the front of the store
- Worked with cashiers and in the dining area when it was allowed to be opened

ACADEMIC BACKGROUND

University of Toronto Mississauga

September 2021 - Present

- Major in biology for health sciences
- Double minor in Anthropology and Biomedical Communication
- Biology heavy schedule with a variety of other courses
- Second year student with a 3.91 sGPA and a 3.56 cGPA

VOLUNTEER EXPERIENCE

Diversity Research Volunteer, Caledon Dufferin Victim Services

February 2023

- Created an overview of multiple survey websites and created a survey to gain a better understanding of the diversity of volunteers
- Co-wrote a research paper titled 'Research Synthesis: Marketing Strategies to Maximize Community Engagement' where our group researched ways for the organization to retain and gain more volunteers

Student Volunteer, William Osler Health System

January 2023 - Present

- In the Diagnostic Imaging unit
- Working with staff to organize appointments and processing of patients
- Interacting with patients to assist them and coordinate their CT scan appointments by telling them any pre-test information and what to wear

Cat Foster, Etobicoke Humane Society

June 2018 - January 2023

- Worked with mostly skittish and feral cats to care for them while they await adoption
- Cleaned, fed, and administered medication via oral and injection to numerous cats throughout the years along with my family

NON-PUBLISHED ACADEMIC PAPERS

- Research Synthesis: Marketing Strategies to Maximize Community Engagement
- Do Beta-Blockers Increase the Risk of Developing Depression
- What long-term effects follow an unproven study that has been labelled "ground-breaking"? A focus on Andrew Wakefield's "Ileal-lymphoid-nodular hyperplasia, non-specific colitis, and pervasive developmental disorder in children".
